

EXPERIMENT 5

System Status & File Management Commands (uptime, date, mv)

Name: Shaik Reehan

Reg. No.: 192565071

Subject: Ethical Hacking

Course Code: ITA1413

AIM:

To execute and demonstrate the functionality, syntax, and outputs of system status monitoring (uptime, date) and file moving/renaming (mv) in Kali Linux Operating System.

COMMANDS AND DESCRIPTION:

1. uptime:

- *Description:* Displays system uptime, current time, active logged-in user count, and system load averages.
- *Syntax:* uptime [options]
- *Options:* -p (show uptime in pretty human-readable format), -s (show up-since timestamp).

2. date:

- *Description:* Displays or sets the system date, time, and timezone with configurable formatting.
- *Syntax:* date [options] [+format]
- *Options:* -u (display coordinated universal time UTC), +%Y-%m-%d (formatted output).

3. mv (Move):

- *Description:* Moves or renames files and directories within the Linux filesystem.
- *Syntax:* mv [options] <source> <destination>
- *Options:* -v (verbose reporting of moved items), -i (interactive prompt before overwrite).

OUTPUT:

```
unknownm@kali: ~/ETHICAL

(unknownm@kali) - [~/ETHICAL]
└─$ date
Mon Oct 5 10:24:18 IST 2026

(unknownm@kali) - [~/ETHICAL]
└─$ uptime
10:24:18 up 2:54, 1 user, load average: 0.12, 0.08, 0.03

(unknownm@kali) - [~/ETHICAL]
└─$ uptime -p
up 2 hours, 54 minutes

(unknownm@kali) - [~/ETHICAL]
└─$ ls
ETHICS  et2.txt  hi  something

(unknownm@kali) - [~/ETHICAL]
└─$ mv -v hi greeting.txt
renamed 'hi' -> 'greeting.txt'

(unknownm@kali) - [~/ETHICAL]
└─$ ls
ETHICS  et2.txt  greeting.txt  something

(unknownm@kali) - [~/ETHICAL]
└─$
```

RESULT:

Thus, the Linux commands uptime, date, and mv were successfully executed in Kali Linux Operating System, verifying system time reporting, uptime tracking, and file renaming.
